Schools welcome you with singing and dancing

A village in Kwaina humbles themselves before God to acknowledge Him as God and God alone

Speaking and encouraging schools with testimonies and messages

Working alongside our drillers

In the Garden Mission Drilling Department

The drilling machine set up in Northern Uganda

June 8—June 22

Fresh Water Well Drilling and Farming Gods Way Trip

1. This trip will include drilling alongside our Drilling Department in a remote village, a Farming God's Way training in the same village and various village ministry.
2. This trip has many options and you do not have to participate in drilling to be apart of this trip. But it is an option and we would love for many to participate and see what it takes to install a fresh water well for a village. You will also share in the joy of the villages as they receive fresh, ,clean water.
3. While the drilling is happening, we will also have a Farming Gods Way training for the village. You do not have to be trained in FGW to help with this training.
4. There will also be many opportunities for village ministry: home visits, school visits, attending local churches, encouraging people through prayer, speaking, giving testimonies.
5. This trip will require malaria and typhoid vaccines, due to the remote nature of the village we will work in.
6. Deadline to sign up for this trip and pay the \$500 non-refundable deposit is March 1, 2025.
7. You must fill out an application and be approved to travel with In the Garden Missions.

If you believe this trip is for you, please go to our **Trip Portal** and download our 2025 Information pack for the full details.
